

As a member of the media, you're invited to our Building Together | Visualize event on May 8 at 2:00 PM (CEST)

May 03, 2024 20:03 CEST

## MEDIA ALERT! Creating winning presentations with Archicad

Compelling presentations are often the lynchpin to making great architecture a reality. Pitching ideas with powerful visualizations will impress future clients and inspire current ones. Traditionally, data-heavy renders and VR walkthroughs could take hours and require specialized skill sets.

The landscape is changing.

In this fast-paced **Building Together | Visualize webinar on May 8, starting at 2 PM (CEST)**, we'll showcase the creative use of some of our out-of-the-box

Archicad tools, such as Graphic Overrides, 3D styles, and rendering engines, and our connection to external rendering software like **Twinmotion** and **Enscape**.

We'll also step into the future with [Archicad AI Visualizer](#) powered by Stable Diffusion, an experimental Archicad capability that creates inspiring, detailed, 3D visualizations in the early design stages.

Join us at our visualization-focused AEC webinar to discover a bright future with architectural visualization.

**SIGN ME UP**

*Can't make it? Sign up and we'll send you the on-demand replay!*
