WEBINAR

MAY 8/2024

BUILDING TOGETHER

VISUALIZE

CREATIVE VISUALIZATION
WITH ARCHICAD

As a member of the media, you're invited to our Building Together | Visualize event on May 8 at 2:00 PM (CEST)

May 03, 2024 20:03 CEST

MEDIA ALERT! Creating winning presentations with Archicad

Compelling presentations are often the lynchpin to making great architecture a reality. Pitching ideas with powerful visualizations will impress future clients and inspire current ones. Traditionally, data-heavy renders and VR walkthroughs could take hours and require specialized skill sets.

The landscape is changing.

In this fast-paced **Building Together | Visualize webinar on May 8, starting at 2 PM (CEST)**, we'll showcase the creative use of some of our out-of-the-box

Archicad tools, such as Graphic Overrides, 3D styles, and rendering engines, and our connection to external rendering software like **Twinmotion** and **Enscape**.

We'll also step into the future with [Archicad AI Visualizer](#) powered by Stable Diffusion, an experimental Archicad capability that creates inspiring, detailed, 3D visualizations in the early design stages.

Join us at our visualization-focused AEC webinar to discover a bright future with architectural visualization.

SIGN ME UP

Can't make it? Sign up and we'll send you the on-demand replay!

About Graphisoft

[Graphisoft](#)® empowers teams to design great buildings through award-winning software solutions, learning programs, and professional services for the AEC industry. **Archicad**®, the architects' BIM software of choice, offers a complete end-to-end design and documentation workflow for architectural and integrated architectural and engineering practices of any size. **BIMx**®, the most popular mobile and web BIM app, extends the BIM experience to include all stakeholders in the building design, delivery, and operations lifecycle. **BIMcloud**®, the AEC industry's first and most advanced cloud-based team collaboration solution, makes real-time collaboration possible across the globe regardless of the size of the project and the speed or quality of the team members' network connection. **DDScad**'s intelligent MEP design tools, integrated calculations, and comprehensive documentation solutions combine great architecture with peak building performance. Graphisoft is part of the Nemetschek Group. To learn more, visit www.graphisoft.com
