MEDIA ALERT! Explore new software tools for expanding AEC collaboration

As a member of the media, you're invited to our upcoming digital event, **Building Together | Collaborate**, on Thursday, April 25, from 2:00 to 4:00 PM (CEST). This complimentary event promises to be an insightful and collaborative experience you won't want to miss!

In an era of expanding teams and dispersed work sites, Graphisoft invites you to join the conversation on digital collaboration! Explore the exploding landscape of BIM-enabled tools and workflows, empowering teams to design, discuss, share, and present their finest work from anywhere.

- Tune in as we share how millions of exceptional buildings have been designed with **Graphisoft** and **Nemetschek** solutions in a

seamless design collaboration process, including workflows with our sister brands **Solibri** and **Bluebeam**.

- Standards are everywhere, from how we drive to the batteries we put in our devices and how we pay for goods and services. So, how do standards affect how we create architecture and collaborate in the AEC industry?
- Customer story - **Siebert + Talaš** has over 25 years of experience working with Graphisoft solutions. Their collaborative workflows help them consistently deliver exceptional client work while meeting the team's personal and company goals.
- Live Q&A – Ask the experts.

[Check out the fast-paced agenda here.](#)

Please note that Building Together | Collaborate will be in **English** with **French, German, and Brazilian Portuguese** subtitles. Can't make it? Sign up to receive the free on-demand replay!

About Graphisoft

[Graphisoft](#)® empowers teams to design great buildings through award-winning software solutions, learning programs, and professional services for the AEC industry. **Archicad**®, the architects' BIM software of choice, offers a complete end-to-end design and documentation workflow for architectural and integrated architectural and engineering practices of any size. **BIMx**®, the most popular mobile and web BIM app, extends the BIM experience to include all stakeholders in the building design, delivery, and operations lifecycle. **BIMcloud**®, the AEC industry's first and most advanced cloud-based team collaboration solution, makes real-time collaboration possible across the globe regardless of the size of the project and the speed or quality of the team members' network connection. **DDScad**'s intelligent MEP design tools, integrated calculations, and comprehensive documentation solutions combine great architecture with peak building performance.
