As a member of the media, you're invited to our Building Together | Innovate online event on June 13

Jun 10, 2024 14:54 CEST

MEDIA ALERT: Explore new technology that extends design capacity

WHAT: Building Together | Innovate is an online English AEC event with **English, French, German, and Portuguese** subtitles.

WHEN: June 13at 2 PM (CEST)

WHAT TO EXPECT: Hear from four international architecture firms - including the design team behind the **Paris Athletes' Village** - as they share how technology has helped them overcome design challenges and deliver exceptional results. In this fast-paced AEC digital event, we hand the

microphone to a powerhouse line-up of Graphisoft users to learn how our tools and platforms have helped break the mold in real projects worldwide.

Presentations include:

CoBe, KOZ, and Atelier George (France): A marathon with sprints in between - collaborating on the 2024 Athletes' Village

Cities hosting global athletics events are familiar with questions about what will happen to large-scale new structures built to host massive (temporary) audiences. This, too, was the sustainability demand that the design team behind the **Paris Athletes' Village** was tasked with solving. Applying an innovative approach to using prefabricated materials, the design team created structures that respond to the environment and both short—and long-term needs.

architectsAlliance (Canada): Revitalizing Waterfronts - Pier 27's Architectural Innovation and Project Management Insights

Toronto's Pier 27 is an example of iconic architecture that enriches the public realm while raising the bar for future waterfront development. Learn about the challenges of managing a complex waterfront redevelopment project, including stakeholder expectations, noise reduction, and software updates.

SIGN ME UP

*The event is in **English**, with **English, French, German, and Portuguese** subtitles.*

Can't make it? Sign up, and we'll send you the on-demand replay!

[Graphisoft](https://www.graphisoft.com)® empowers teams to design great buildings through award-winning software solutions, learning programs, and professional services for the AEC industry. **Archicad**®, the architects' BIM software of choice, offers a complete end-to-end design and documentation workflow for architectural and integrated architectural and engineering practices of any size. **BIMx**®, the most popular mobile and web BIM app, extends the BIM experience to include all stakeholders in the building design, delivery, and operations lifecycle. **BIMcloud**®, the AEC industry's first and most advanced cloud-based team collaboration solution, makes real-time collaboration possible across the globe regardless of the size of the project and the speed or quality of the team members' network connection. **DDScad**'s intelligent MEP design tools, integrated calculations, and comprehensive documentation solutions combine great architecture with peak building performance. Graphisoft is part of the Nemetschek Group. To learn more, visit www.graphisoft.com
