Shaping the future together: The Nemetschek Group presents its solutions at ReBuild Ukraine

Munich, November 8, 2023 – From November 14 to 15, the [Nemetschek Group](#) will participate in ReBuild Ukraine in Warsaw. The international event is specifically dedicated to the reconstruction of war-torn Ukraine. The Nemetschek Group will be represented in Poland with five brands. It will present software solutions that can contribute to the efficient reconstruction of buildings and infrastructure, such as tunnels and bridges.

The focus of the trade fair and conference, which will take place for the

second time in 2023, is on infrastructure, industry, energy, and residential construction. Everything revolves around the necessary materials, technologies, equipment, and investments. The main objective of ReBuild Ukraine is to create a platform for international institutions to aid in the reconstruction of Ukrainian cities and communities and to support Ukrainian energy companies in restoring critical infrastructure facilities.

As an international software provider, the Nemetschek Group and its brands Allplan, Bluebeam, Graphisoft, and Solibri and the horizontal, data-driven digital twin platform dTwin will showcase how digital solutions can support a rapid reconstruction. The solutions are used in infrastructure projects such as tunnels and bridges, building construction and civil engineering, and construction with precast concrete elements. In addition, there are solutions for quality management and control, collaboration, as-built digitalization, and data management, which provide the basis for efficient, resource-saving operation of new buildings and infrastructure. Fast, smooth processes and barrier-free collaboration between all project participants have characterized Nemetschek solutions along the entire building value chain for over half a century.

Yves Padrines, CEO of the Nemetschek Group, said, "We are all moved by the difficult situation of the people in Ukraine. As an international company with European roots, we are aware of the responsibility we have now and in the future. That is why we are committed to working with our brands in the coming years to rebuild the country sustainably and efficiently."

ReBuild Ukraine will take place on the grounds of EXPO XXI in Warsaw, Poland. The Nemetschek Group and its brands will be at a joint stand in Hall 1-A-7, next to the European Commission.

About the Nemetschek Group

The Nemetschek Group is a leading global software provider for digital transformation in the AEC/O and media industries. Its intelligent software solutions cover the entire lifecycle of building and infrastructure projects and enable creatives to optimize their workflows. Customers can design, build, and manage buildings and infrastructures more efficiently and sustainably and develop digital content such as visualizations, films, and computer games more creatively. The software provider is driving innovations such as digital twins, open standards (OPEN BIM), and sustainability in the AEC/O

industry, constantly expanding its portfolio by investing in deep-tech startups. More than seven million users worldwide are shaping the world with the customer-focused solutions of our four divisions. Founded by Prof. Georg Nemetschek in 1963, the Nemetschek Group today employs around 3,600 experts globally.

Publicly listed since 1999 and quoted on the MDAX and TecDAX, the company generated revenues of EUR 801.8 million and an EBITDA of EUR 257.0 million in 2022.

About Graphisoft

[Graphisoft](#)® empowers teams to design great buildings through award-winning software solutions, learning programs, and professional services for the AEC industry. Our award-winning products and solutions support OPEN BIM for workflow transparency, longevity, and data accessibility for built assets. **Archicad**®, the architects' BIM software of choice, offers a complete end-to-end design and documentation workflow for architectural and integrated architectural and engineering practices of any size. **BIMx**®, the most popular mobile and web BIM app, extends the BIM experience to include all stakeholders in the building design, delivery, and operations lifecycle. **BIMcloud**®, the AEC industry's first and most advanced cloud-based team collaboration solution, makes real-time collaboration possible across the globe regardless of the size of the project and the speed or quality of the team members' network connection. **DDScad** solutions support users with intelligent Mechanical, Electrical, and Plumbing (MEP) design tools, integrated calculations, and comprehensive documentation of all building system disciplines. Graphisoft is part of the Nemetschek Group. To learn more, visit graphisoft.com.
