

Jun 23, 2022 15:00 CEST

The future of Graphisoft is here.

You're invited to our Global Press Event on Thursday, July 14, at 1:00 PM (CEST).

Over the past 40 years, **Graphisoft** users have designed millions of buildings worldwide with powerful **BIM** software that is developed with a singularly focused mission – **Empowering teams to create great architecture**. This past year, we put our nose to the grindstone to create a set of new features and updates that stay true to that mission.

This year's **Global Press Event** on **July 14** will feature more than updates to our solutions and services. You'll hear from our CEO, **Huw Roberts**, on the last 40 years of innovation and what the Graphisoft team envisions for the future of BIM moving forward. We'll also share exciting news on our latest updates

followed by an open Q&A round.

Later that same day, you won't want to miss our exciting new portfolio launch at a **Global Launch Event** packed with this year's major developments. We'll address how architecture practices can work efficiently in today's hybrid environment, new approaches to innovative collaboration, and our roadmap to keep growing as the leading Building Information Modeling solutions and services provider for architecture.

Get a first-hand look at what's new in **Archicad**, **BIMcloud**, **BIMx**, **DDScad** – **and more!** Register today for the **Global Launch Event** on **July 14, at 3:00 PM (CEST)**.

About Graphisoft

[Graphisoft](#)® empowers teams to create great architecture, through award-winning software solutions, learning programs, and professional services for the Architecture, Engineering, and Construction industries. **Archicad**®, the architects' BIM software of choice, offers a complete end-to-end design and documentation workflow for architectural and integrated architectural and engineering practices of any size. **BIMx**®, the most popular mobile and web BIM app, extends the BIM experience to include all stakeholders in the building design, delivery, and operations lifecycle. **BIMcloud**®, the AEC industry's first and most advanced cloud-based team collaboration solution, makes real-time collaboration possible across the globe regardless of the size of the project and the speed or quality of the team members' network connection. **DDScad**'s intelligent Mechanical, Electrical, Plumbing (MEP) design tools, integrated calculations, and comprehensive documentation solutions combine great architecture with peak building performance. Graphisoft is part of the Nemetschek Group. To learn more visit www.graphisoft.com
